APPLEBY COLLEGE, CANADA

# Human Exploration of Space

*through the lens of the  
RS IDEALS*

# POSTCARD

For over 60 years, humans have been venturing beyond Earth, pushing the boundaries of what's possible and discovering new frontiers in space. But space exploration isn't just about rockets and astronauts—it's deeply connected to values that shape how we work together as a global community.

Through the Round Square IDEALS, we can better understand how nations can continue to collaborate on projects like the International Space Station, shared decision-making in multinational teams which emphasize Democratic principles, and continue to study the Earth's climate and how to protect our planet. In this Postcard, we'll explore how these RS IDEALS aren't just guiding principles to live by on Earth—they're essential to humanity's future in Space.

Join us to discover how space exploration reflects the best of what we can achieve together!

*Appleby College*

Title: **Human Exploration of Space through the lens of the RS IDEALS**

Date: **April 08**

Time: **10am EDT (GMT -6)**

We make the start time to be 8am in Salt Lake City, Mexico City and San Pedro Sula, 9am in Lima and Bogotá, 11pm in Buenos Aires and São Paulo, 3pm in London, 4pm in Copenhagen and Johannesburg, 5pm in Doha and Nairobi, 6pm in Dubai, and 7:30pm in Delhibut please check for your own location.
