

Cutting Edge Tech in Transportation

...driving the future or dividing the world?

POSTCARD

For our upcoming Postcard, we invite you to explore and share insights about a cutting-edge transportation technology present in your city—this could include innovations such as electric mobility, autonomous systems, hyperloop, drone-based transport, alternative fuels, water taxis, high-speed metro, or maglev.

Come prepared to discuss one significant advantage and one challenge of this technology, particularly in terms of its social impact. As you reflect, consider questions like: *How accessible and inclusive is this technology within your city?*

We look forward to hearing your perspectives and engaging in a meaningful discussion together.

*The Cathedral and John
Cannon School*

Title: Cutting Edge Technology in Transportation:
Driving the Future or Dividing the World?

Date: 20 May

Time: 8:30am IST (GMT +5:30)

We make the start time to be 7am in Dubai, 9am in Dhaka, 10am in Bangkok, 11am in Beijing, Hong Kong and Perth, 12pm in Tokyo, 12:30am in Alice Springs, and 3pm in Auckland. But please double check this for your own location.

Participants: 16 to 18 years

Register: <https://podio.com/webforms/30715599/2607756>

Pre-work: Upload [HERE](#) a slide exploring a cutting-edge transportation technology present in your city and come prepared to discuss one significant advantage and one challenge of this technology.
